INSPIRATIONAL BATHROOM SURFACES

BRILLIANCE BLUE FLORALS

*Old problems,
modern solutions.*
**Mermaid Panels
are the stunning
contemporary
way to finish your
bathroom.**

We have poured all our design expertise into our latest collection. Our largest ever range of panels and flooring, with a decor perfect for any bathroom.

Our **Brilliance** range of panels is available in two different finishes, gloss and a more subtle matt effect. **Elite** are our premium, next generation bathroom panels. As no trims are required with **Elite**, you can create a completely seamless finish.

With either range, you can have peace of mind with Mermaid bathroom panels. We offer none of the stress of tiles with no unsightly grouting, all the while giving you more design flexibility and a 15 year guarantee.

What makes a Mermaid bathroom panel unique?

Our Elite and Brilliance panels are guaranteed to remain watertight and waterproof for 15 years from date of purchase, as long as they've been installed and maintained as per our recommendations. For full terms and conditions see www.mermaidpanels.co.uk

We don't like grout, who does? It takes a long time to apply, it's a nightmare to clean and after a while it just goes mouldy. There's no grout used with our products, so that means no more mould. Even the Elite adhesive used to fix the shower panel to the wall is antimicrobial.

Mermaid Brilliance panels give the look of glass, but come with the benefit that they can be cut on-site and require no specialist tools, making your installation quick and easy. Our Elite range can also be cut simply and quickly on-site, making installation a breeze.

Mermaid panels are so much quicker to fit than tiles that it'll save you money and the effort of getting someone in for long periods of time. As no trims are required on our Elite range, this also means that these panels can be installed even quicker.

Mermaid panels are easy to keep clean with a simple wipe of a non-abrasive cloth and non-bleach bathroom cleaner.

Our Elite and Brilliance panels are designed and manufactured here in the UK in our new base in beautiful Perthshire. This also means that we are just at the end of a phone with any questions.

We now have one of the largest and most extensive range of bathroom surfaces on the market, which can be daunting hence why we have split our brochure between styles and collections - this should help you be able to make the ideal selection for your bathroom.

Our tongue and groove system creates a join that will remain watertight, meaning you can create a smooth, uniform finish throughout your bathroom.

Bathroom design styles

We think your bathroom is the most important room in the house. A great bathroom can be a sanctuary from the stress of everyday life and a place to relax and unwind.

Having been in the bathroom business for the last 30 years, we like to think we know what makes the difference between a good bathroom and a great one.

Your chosen bathroom style can say a lot about you and should reflect exactly what design style you love. Are you classic and traditional or up for more of a modern look? Whatever your taste in interior decoration, there is a bathroom decor style perfect for you and your needs.

Mermaid now has a range of collections that can work with a variety of styles.

Please use the following pages as inspiration as to how we can help you turn your bathroom into the space of your dreams, from stand-out style using our **Brilliance Patterns** collection to the traditional beauty of our **Elite Stones** and **Marbles**.

Use Mermaid and all our expertise to get your bathroom design style right first-time.

Make your bathroom pop with a wall of pattern or bold colour. This look can be particularly effective in a room such as this one, with subtle white tones throughout the rest of the space, making the shower walls the centre of attention.

Decor Shown: Brilliance Squares, see page 26

MAKE A STATEMENT

Traditional

There is a reason that traditions last a long time, just like there is a reason why a classic space like this, with traditional Victorian features, is a style that still works wonderfully today.

Details like the wooden vanity stand and cast iron radiator blend beautifully with the marble walls and period look shower head.

Decor Shown: Elite Himalayan Marble, see page 41

For those looking for a clutter-free, sleek look bathroom that simply sparks joy, minimalist style is all about keeping your bathroom pared back to just the essentials.

We love the bathroom on the right with its minimal use of colour, but large amounts of light and the white shower panels in the room above are ideal for creating a sharp, fresh look.

Decor above: Elite Athena Marble, see page 40

Decor on right: Brilliance Urban Grey, see page 30

Minimalist

For bathrooms inspired by the Earth's natural palette with rustic stones, marbles and woods, these spaces reflect the beauty of nature and the timelessness of the natural world.

The room above has been carefully put together to have the stone walls and floor merge beautifully with the vanity stand. The gold hardware completes the look to give an opulent finish.

Decor above: Elite Scafell Slate, see page 36

Decor on right: Elite Beaumont Tile, see page 44

Natural

For the ultimate in bathroom luxury, contrasting wall decors can really make your space individual.

The opulent marble finish Marmo Migliore is used here as a shower panel, and then the unique Ravello decor is used on the remaining bathroom walls.

Decors Shown: Elite Marmo Migliore, see page 41 and Elite Ravello, see page 52

LUXURIOUS

INDUSTRIAL

An industrial style uses the raw materials and generous volume of space found in the former work spaces that have been converted into lofts and warehouses across the country.

Raw materials and finishes such as the wood effect wall panels shown in the bathroom below and the exposed light fittings in the room to the right all make this aesthetic a truly 21st-century look.

BRILLIANCE PANELS

Our Brilliance designs are created on acrylic sheets, meaning a beautiful glass look without the awkward installation or the price tag.

REFLECTIVE GLOSS FINISH

Our Brilliance panels are available in stunningly subtle matt or a beautiful gloss.

The gloss finish has a glass like effect, reflecting light and colour all around your bathroom.

BRILLIANCE PATTERNS

Mermaid's acrylic range of patterned shower panels truly make a statement

Our **Squares** decor, like all in our patterned range of Brilliance panels, becomes the star of the show in this modern bathroom space. Its eye-catching geometric shape reflects the bold graphic look of mid-century Swiss design.

Brilliance panels are produced on acrylic sheets, meaning a beautiful glass look without the awkward installation or the price tag.

Available in the following sizes:

2440 x 1220 x 4mm

BRILLIANCE PATTERNS

Mermaid recommended adhesive and sealant must be used to validate the 15 year guarantee.

ELITE TILE

Mermaid's range of tile inspired panels can offer the look of tiles but with none of the hassle

Concrete Tile as shown here creates the look and feel of classic tiles, without any of the hassle.

It creates a modern urban grey concrete look, complete with grout lines for authenticity, but without the risk of mould, or tiles cracking

It's important to remember that Mermaid bathroom panels do not have to be used as shower panels but can be used all around the bathroom.

Our classic tile panels, Beaumont, Contrete and Shire Tile are specifically designed to align like tiles, meaning that when the panels are fixed together, the design continues seamlessly.

Our Elite range is our premium bathroom panel. As no trims are required with Elite, you can create a completely seamless finish.

WORKING WITH DESIGNS & JOINTS

With the exception of our Tile collection, our decors are not designed to align across joints. The impact will vary based on the decor, on some it may be more evident than others.

However, our Tile range has been specifically designed to continue the design across the joints, resulting in a beautiful seamless finish.
